ALL REPAIR OPTIONS INCLUDE A COMPREHENSIVE INTERNAL AND EXTERNAL CLEANING AND TESTING OF PERFORMANCE AND OUTPUT

**PUSH BUTTON AND LEVER-STYLE TURBINES CONTAIN AN "AUTOCHUCKING" MECHANISM WHICH, IF ITS MECHANICAL INTEGRITY IS COMPROMISED, MAY FAIL TO SECURELY GRIP THE CUTTING BUR. DUE TO THE INTENSE SAFETY ISSUES INVOLVED, THE DENTIST'S CHOICE WILL NOT REBUILD A TURBINE ON A FAULTY AUTOCHUCKING SPINDLE, AND WILL INSTEAD UPGRADE THE REPAIR TO OPTION "B", TURBINE REPLACEMENT.

Return shipments are insured for \$100. Mark box at left to insure for full retail value. Additional cost applies.
